Published response deadline	November 12, 2026 · 5:00 PM Eastern
Source review date	November 10, 2026

Assessment status: INSUFFICIENT CUSTOMER PROFILE / DOCUMENT REVIEW
This is a demonstration of the BidSignal report format, not a bid recommendation. A reliable company-specific fit score cannot be calculated without the supplier's profile and full solicitation package.

1. Opportunity summary

The public notice describes a follow-on requirement for IT support services supporting the DHS Office of Inspector General. The stated work areas include on-premise and cloud-based systems engineering, network and infrastructure administration, development services, cybersecurity, project management and business analysis.

2. Initial relevance signals

Signal	Initial interpretation	Confidence
NAICS 541512	Relevant to businesses providing computer systems design services; supplier's actual primary work must be checked.	Medium
Small-business set-aside	Supplier must confirm it qualifies under the applicable size standard and solicitation terms.	High that set-aside is stated; supplier eligibility u
Washington, DC performance	Supplier must establish ability to meet the place-of-performance and staffing requirements.	Medium
Multi-disciplinary IT scope	The listed areas suggest broad staffing and technical coverage; capability depth is unknown.	Medium
Special Notice	Do not assume this is a final request for proposals or that the summary contains all response instructions.	High

3. Eligibility and qualification checks

Check	Status	What must be confirmed
Active SAM.gov registration	Unknown	Verify the supplier's entity registration and representations.

Check	Status	What must be confirmed
Small-business size status	Unknown	Check the applicable NAICS size standard and the supplier's affiliation/size facts.
Relevant past performance	Unknown	Identify comparable federal or commercial projects and references.
Technical staffing and skills	Unknown	Confirm ability to cover the IT disciplines and required labor categories.
Location / on-site obligations	Unknown	Review the full notice and attachments for actual worksite and attendance terms.
Security / clearance requirements	Unknown	Do not assume; inspect the full solicitation and attachments.

4. Preliminary bid/no-bid guidance

Recommendation: HOLD — obtain and review the complete official notice and attachment before making a pursuit decision. The public summary provides a useful scope and set-aside signal, but does not establish all submission instructions, mandatory qualifications, staffing requirements, evaluation factors or commercial terms. A customer-specific decision also requires the supplier's company profile.

5. Questions BidSignal should ask the customer

- Is your SAM.gov entity registration active, and is your business eligible for this set-aside?
- Do you provide computer systems design and related IT support services under NAICS 541512?
- Can you perform work in Washington, DC, including any on-site staffing obligations?
- Can you demonstrate relevant past performance and qualified personnel across the stated work areas?
- Do you have the capacity and any required security posture to meet the complete solicitation requirements?

6. Source and limitations

Public notice summary: GovChime notice record. Official opportunity: SAM.gov notice. The notice summary and its attachment listing were available for review; the full attachment could not be independently inspected for this prototype. Deadline and notice status can change. Verify all details on SAM.gov before acting.
